- Bootstrap
- WordPress
- jquery
- ReactJS

Education

Ongoing

Bhakt Kavi Narshih Maheta University
Bachelor of Commerce

Frameboxx Animation and IT

Frontend Web Development & UI/UX + WEB

Learning Frontend Web Development and UI/UX Design focus on creating visually appealing, responsive, and user-friendly websites and applications. Using technologies like HTML, CSS, JavaScript, Bootstrap, and React.js, frontend development ensures interactive and seamless interfaces. UI/UX design enhances user experience through intuitive layouts, wireframing, and accessibility, making digital platforms more engaging and efficient.

Projects

Burger House : is a responsive and visually appealing restaurant website that I designed and developed to showcase a burger brand online. Built using HTML, CSS, and JavaScript, the site features a modern layout with smooth scrolling, a product showcase, and a strong call-to-action to engage visitors. It's optimized for all devices and hosted on Netlify, reflecting my skills in UI/UX design, front-end development, and responsive web design.

Italian Food : is a stylish and responsive food website created to present an Italian restaurant's offerings in an elegant and user-friendly way. Developed using HTML, CSS, and JavaScript, the website includes a clean homepage layout, featured dishes, smooth navigation, and responsive design for all devices. Hosted on Netlify, this project showcases my ability to combine UI/UX design with front-end web development to deliver a modern and attractive user experience.
